

Support pollinators in your garden!

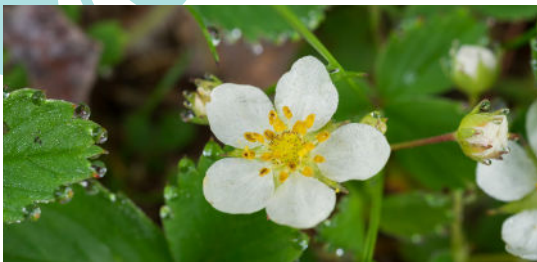

Native plants are adapted to local climate and soils, and often require less care and watering once established. They provide sugar-filled nectar and protein-rich pollen for native insects, including butterflies and bees. This list includes a selection of garden-friendly plants that are native to New Brunswick ecoregions. When purchasing native plants, use their botanical names to make sure you are getting the correct species.

Black-eyed Susan (Junaid Khan)

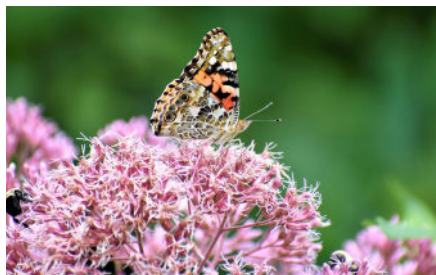

Carolina Rose (Ian Whyte)

Wild Strawberry

New England Aster

Joe Pye Weed

White Turtlehead (Ian Whyte)

Common Name	Botanical Name	Height	Flower Colour	Flower Season	Sun	Soil	Pollinators
Pin Cherry	<i>Prunus pensylvanica</i>	7 to 11 m	White	April to June	Sun	Dry to moist, well drained	Bees
Downy Serviceberry	<i>Amelanchier arborea</i>	4 to 8 m	White	April to May	Sun to partial sun	Dry to moist, well drained	Bees, flies
Carolina Rose	<i>Rosa carolina</i>	1 to 2 m	Pink	May	Sun	Normal to wet	Bees, butterflies
Swamp Milkweed	<i>Asclepias incarnata</i>	1 to 1.2 m	Pink, purple	June to August	Sun	Moist to wet	Bees, butterflies
White Turtlehead	<i>Chelone glabra</i>	50 cm to 1.2 m	White	August to September	Sun to partial sun	Moist to wet	Bees, butterflies
New England Aster	<i>Symphyotrichum novae-angliae</i>	1 to 2 m	Pink, purple	August to October	Sun to partial shade	Moist to average	Bees, butterflies, flies
Calico Aster	<i>Symphyotrichum lateriflorum</i>	90 cm to 1.2 m	White	August to October	Sun to partial shade	Dry to moist	Butterflies
Gray Goldenrod	<i>Solidago nemoralis</i>	50 cm to 1 m	Yellow	August to October	Sun to partial shade	Dry to average	Bees, butterflies
Black-eyed Susan	<i>Rudbeckia hirta</i>	30 to 90 cm	Yellow with brown centre	July to September	Sun to partial sun	Moist to dry	Bees, butterflies, beetles, wasps
Wild Strawberry	<i>Fragaria virginiana</i>	8 to 10 cm	White	May to July	Sun to partial shade	Dry to average	Bees, butterflies
Joe-pye Weed	<i>Eutrochium maculatum</i>	1.2 to 2 m	Pink, purple	July to September	Sun to partial shade	Moist to wet, well drained	Bees, butterflies
Canada Mayflower	<i>Maianthemum canadense</i>	10 to 20 cm	White	May to June	Partial shade to shade	Average to moist	Bees, flies, beetles
Virgin's Bower	<i>Clematis virginiana</i>	2 to 6 m	White	July to August	Sun to partial shade	Average to moist	Bees, butterflies
Fireweed	<i>Chamerion angustifolium</i>	1 to 1.8 m	Pink, purple	July to September	Sun to partial sun	Dry to moist, well drained	Hummingbirds, bees, butterflies
Tufted Hair Grass	<i>Deschampsia cespitosa</i>	60 to 90 cm	Gold, silver, green	July	Partial sun to partial shade	Average to moist	Butterflies
Plantain-leaved Sedge	<i>Carex plantaginea</i>	60 cm	Inconspicuous	May	Partial shade to shade	Dry to moist, well drained	Butterflies
